July 2011

## ★ **AGRICULTURE**

### **Risk Management Education and Outreach Partnerships Program**

The purpose of this combined cooperative partnership agreements program is to deliver crop insurance education and risk management training to U.S. agricultural producers to assist them in identifying and managing production, marketing, legal, financial and human risk. The program gives priority to: (1) educating producers of crops currently not insured under Federal crop insurance, specialty crops, and underserved commodities, including livestock and forage; and (2) providing collaborative outreach and assistance programs for limited resource, socially disadvantaged and other traditionally under-served farmers and ranchers.

**Deadline: July 14, 2011**

**Maximum Grant: \$100,000**

**Grant Link:** <http://www.rma.usda.gov/news/2011/06/outreach.pdf>

### **Rural Cooperative Development Grant Program (RCDG)**

Rural Cooperative Development grants are made for establishing and operating centers for cooperative development for the primary purpose of improving the economic condition of rural areas through the development of new cooperatives and improving operations of existing cooperatives. The U.S. Department of Agriculture desires to encourage and stimulate the development of effective cooperative organizations in rural America as a part of its total package of rural development efforts.

**Deadline: July 22, 2011**

**Maximum Grant: \$225,000**

### **Critical Issues: Emerging and New Plant and Animal Pests and Diseases**

The program is designed to provide one-time seed funding to help initiate work requiring immediate attention until other longer-term resources can be secured to address the issue. Priority will be given to proposals that demonstrate evidence of collaboration and communication with working groups and approved multi-state research committees, however all applicants qualified to conduct the research are encouraged to apply. For this particular solicitation, NIFA is requesting proposals that address specific aspects of the following issues: The Bagrada bug, *Bagrada hilaris*, (also known as the painted bug or harlequin bug) on vegetable crops; Rat lungworm, *Angiostrongylus cantonensis*, and associated disease transmission to humans; Groundnut ringspot virus (GRSV) in

tomato and other agronomic crops.

**Deadline: August 1, 2011**

### **Higher Education Multicultural Scholars Program**

The purpose of this competitive undergraduate scholarship grant program is to increase the multicultural diversity of the food and agricultural scientific and professional workforce, and advance the educational achievement of all Americans by providing competitive grants to colleges and universities. The Multicultural Scholars Program is available every year.

**Deadline: August 22, 2011**

**Maximum Grant: \$600,000**

**Grant Link:** <http://www.csrees.usda.gov/fo/multiculturalscholarshep.cfm>

### **Agriculture and Food Research Initiative – Food Safety**

This AFRI Challenge Area promotes and enhances the scientific discipline of food safety, with an overall aim of protecting consumers from microbial and chemical contaminants that may occur during all stages of the food chain, from production to consumption. This requires an understanding of the interdependencies of human, animal, and ecosystem health as it pertains to food-borne pathogens. The long-term outcome for this program is to reduce food-borne illnesses and deaths by improving the safety of the food supply, which will result in reduced impacts on public health and on our economy.

**Deadline: October 11, 2011**

**Maximum Grant: \$7,000,000**

### **Bridging Cultures Implementation Grants**

In setting forth its vision for the National Endowment for the Humanities, Congress declared that the humanities reflect the high place accorded by the American people to the nation's rich cultural heritage and to the fostering of mutual respect for the diverse beliefs and values of all persons and groups. To help Americans better understand our own rich cultural heritage, while enhancing public knowledge of and respect for others both here and abroad, NEH has launched the Bridging Cultures initiative. The initiative encourages projects that explore the ways in which cultures from around the globe, as well as the myriad subcultures within America's borders, have influenced American society. With the aim of revitalizing intellectual and civic life through the humanities, NEH welcomes projects that expand both scholarly and public discussion of diverse countries, peoples, and cultural and intellectual traditions worldwide. As part of its Bridging Cultures initiative, NEH welcomes proposals to implement a national or regional program for broad and diverse public audiences on one of two humanities themes: "Civility and Democracy" or "The Muslim World and the Humanities."

**Deadline: August 2, 2011**

### **Grants for Learning Labs in Libraries and Museums**

These grants will support the planning and designing of up to 30 Learning Labs in libraries and museums throughout the country. The Labs are intended to engage middle- and high-school youth in mentor-led, interest-based, youth-centered, collaborative learning using digital and traditional media. Grantees will be required to participate, in-person and online, in a community of practice that will provide technical assistance, networking, and cross-project learning. Projects are expected to provide prototypes for the field and be based on current research about digital media and youth learning. There will be two project deadlines for this grant program, with the second deadline planned for spring 2012.

**Deadline: August 15, 2011**

### **America's Historical and Cultural Organizations Grants**

America's Historical and Cultural Organizations grants support projects in the humanities that explore stories, ideas, and beliefs in order to deepen our understanding of our lives and our world. The Division of Public Programs supports the development of humanities content and interactivity that excite, inform, and stir thoughtful reflection upon culture, identity, and history in creative and new ways. Grants for America's Historical and Cultural Organizations should encourage dialogue, discussion, and civic engagement, and they should foster learning among people of all ages. To that end, the Division of Public Programs urges applicants to consider more than one format for presenting humanities ideas to the public. NEH offers two categories of grants for America's Historical and Cultural Organizations: planning and implementation grants. Planning grants are available for projects that may need further development before applying for implementation. This planning can include the identification and refinement of the project's main humanities ideas and questions, consultation with scholars, preliminary audience evaluation, preliminary design of the proposed interpretive formats, beta testing of digital formats, development of complementary programming, research, or the drafting of interpretive materials. Implementation grants support the final preparation of a project for presentation to the public. See application guidelines for Implementation Grants. Applicants must submit a full walk-through for an exhibition, or a prototype or storyboard for a digital project that demonstrates a solid command of the humanities ideas and scholarship that relate to the subject. Applicants for implementation grants should have already finished most of the planning for their projects, including the identification of the key humanities themes, relevant scholarship, and program formats. For exhibitions, implementation grants can support the final stages of design development, but these grants are primarily intended for installation.

**Deadline: August 17, 2011**

**Maximum Grant: \$1,000,000**

**Grant Link:** <http://www.neh.gov/grants/guidelines/AHCO.htm>

### **America's Media Makers Grants**

Grants for America's Media Makers support projects in the humanities that explore stories, ideas, and beliefs in order to deepen our understanding of our lives and our world. The Division of Public Programs supports the development of humanities content and interactivity that excite, inform, and stir thoughtful reflection upon culture, identity, and history in creative and new ways. Grants for America's Media Makers should encourage dialogue, discussion, and civic engagement, and they should foster learning among people of all ages. To that end, the Division of Public Programs urges applicants to consider more than one format for presenting humanities ideas to the public. NEH offers two categories of grants for media projects: development grants and production grants. Development grants enable media producers to collaborate with scholars to develop humanities content and format and to prepare programs for production. Development grants should culminate in the refinement of a project's humanities ideas, a script, or a design document for (or a prototype of) digital media components or projects, or a prototype for a digital media project together with a detailed plan for outreach and public engagement in collaboration with partner organizations. See appli-

cation guidelines for Development Grants. Production grants support the preparation of a program for distribution. Applicants must submit a script for a radio or television program, or a prototype or storyboard for a digital media project, that demonstrates a solid command of the humanities ideas and scholarship related to a subject. The script for a radio or television program, or prototype or storyboard for a digital media project, must also show how the narrative elements, visual approach, and interactive design combine to present the project's humanities ideas. Applicants must have consulted with appropriate scholars about the project and obtained their commitment as advisers. Finally, applicants must have recruited the media team, including at a minimum the producer, director, writer, and, for a digital media project, the interactive designer.

**Deadline: August 17, 2011**

**Maximum Grant: \$1,000,000**

**Grant Link:** <http://www.neh.gov/grants/guidelines/AMM.htm>

### **NEA Arts in Media, FY 2012**

Through this category, the National Endowment for the Arts seeks to make the excellence and diversity of the arts widely available to the American public through every available media platform including television, radio, the Internet, interactive and mobile technologies, digital games, and satellite. By increasing the accessibility and impact of the arts, the Arts Endowment aims to strengthen the creativity of our nation. Grants are available to support the development, production, and national distribution of innovative media projects about the arts (e.g., visual arts, music, dance, literature, design, theater, musical theater, opera, folk & traditional arts, and media arts including film, audio, animation, and digital art) and media projects that can be considered works of art. The NEA is seeking and will give priority to artistically excellent projects that have the potential to reach a significant national audience, through their primary platform, regardless of the size or geographic location of the applicant organization. Only projects of the highest artistic excellence and merit, in both media production and subject matter, will be funded. Projects may include high profile multi-part or single television and radio programs (documentaries and dramatic narratives); media created for theatrical release; performance programs; artistic segments for use within an existing series; multi-part webisodes; installations; and interactive games. Short films, five minutes and under, will only be considered in packages of three or more. Projects may deal with any subject matter or art form, and those targeted to children and youth are welcome. The agency encourages innovative, entertaining, compelling, and artistically crafted media projects that not only increase access to, but also enhance public knowledge and understanding of, the arts. Such projects might be multi-platform or transmedia. They may include the use of radio and television, DVDs, interactive web sites, live streaming, audio- and video-on-demand, podcasts, MP3 files, mobile, or other digital applications including games. Projects may include enhancements such as educational materials and/or foster collaborations with arts organizations, educators, and community groups. Media distribution to schools, libraries, as well as homes, and other substantive public engagement strategies will be given priority. Applications should clearly demonstrate the organization's ability to achieve national distribution. Further, in order to reach the widest possible audience, this category will give priority to projects that include a well articulated social media strategy.

#### **Wyeth Foundation for American Art**

The Wyeth Foundation for American Art supports the publication of books on American art through the Wyeth Foundation for American Art Publication Grant, administered by CAA. For purposes of this grant program, "American art" is defined as art created in the United States, Canada, and Mexico prior to 1970. Application is by the publisher, not the author. Applications are considered only for book-length scholarly manuscripts in the history of American art that are under contract for publication. Awards are open to publishers of all nations; authors need not live or work in the United States. Commercial, university, and museum presses are all eligible. Applicant authors and presses must be institutional CAA members, although on a case-by-case basis CAA may waive that requirement upon request for non-US-based independent presses. Excluded from consideration are excavation or other technical reports, articles, previously published works (including collections of previously published essays), and congress proceedings. Museum exhibition or collection catalogues containing substantial scholarship are eligible. High scholarly and intellectual merit is the sine qua non for an award; however, the jury is also attentive to the following criteria:

- Topics on art before 1970
  - Topics with a naturally small market or unusually high expenses
  - Works by disadvantaged scholars, including those at the earlier stages of a career, or by younger scholars or curators; or issued by smaller museums; or by or about underserved constituencies
  - Books that break new ground, contribute new scholarship, or publish important primary-source material
- Beautiful books that increase the audience for American art

**Deadline: October 1, 2011**

**Maximum Grant Amount: \$4,000,000**

#### **Grants for Visual Artists**

The Pollock-Krasner Foundation's dual criteria for grants are recognizable artistic merit and demonstrable financial need, whether professional, personal or both. The Foundation's mission is to aid, internationally, those individuals who have worked as professional artists over a significant period of time. The Foundation welcomes, throughout the year, applications from visual artists who are painters, sculptors and artists who work on paper, including printmakers. There are no deadlines. The Foundation encourages applications from artists who have genuine financial needs that are not necessarily catastrophic. Grants are intended for a one-year period of time. The Foundation will consider need on the part of an applicant for all legitimate expenditures relating to his or her professional work and personal living, including medical expenses. The size of the grant is determined by the individual circumstances of the artist

### **Early Head Start University Partnership Grants: Buffering Children from Toxic Stress**

The Administration for Children and Families (ACF) announces the Early Head Start University Partnership Grants: Buffering Children from Toxic Stress. These grants fund research activities to implement promising parenting interventions which augment ongoing Early Head Start services, in order to improve outcomes for the most vulnerable infants and toddlers. The purpose of this announcement is to report the availability of grant projects to promote knowledge of how Early Head Start programs can buffer children from the effects of toxic stress by supporting parenting/ caregiving. Grantees will be required to demonstrate a partnership or partnerships with Early Head Start programs as an integral part of the research plan development and execution. They will implement a promising parenting interventions model, augmenting existing Early Head Start services, for those children and families at the highest levels of stress. The evaluation component will include a validation of the selected risk factors as indicating a risk for toxic stress, an implementation study of the parenting intervention, as well as a rigorous test of the effectiveness of the

intervention. While many caregiving relationships can provide buffering effects, the focus of this announcement is on the parental (or primary caregiver, foster parent, or guardian if biological parents are not available) relationship.

### **U.S. Repatriation Program**

The U.S. Repatriation Program (Program) was established in 1935 under Section 1113 of the Social Security Act (Assistance for U.S. Citizens Returned from Foreign Countries), to provide temporary assistance to U.S. citizens and their dependents who have been identified by the Department of State (DOS) as having returned, or been brought from a foreign country, to the U.S. because of destitution, illness, war, threat of war, or a similar crisis, and are without available resources. Upon arrival in the U.S., services for repatriates are the responsibility of the Secretary of Health and Human Services (HHS). The Secretary has delegated these responsibilities to the Administration for Children and Families (ACF) and to the Office of Refugee Resettlement (ORR). Temporary Assistance is provided in the form of a loan that must be repaid to the Federal Government. Temporary assistance, which is defined as cash payment, medical care (including counseling), temporary shelter, transportation, and other goods and services necessary for the health or welfare of individuals is given to eligible individuals in the form of a loan and must be repaid to the U.S. Government. Temporary assistance, which is not an entitlement, is available to eligible individuals for up-to 90-days. Periodic case revisions are performed to determine whether the person remains eligible for services. Repatriates are to collaborate with this periodic revisions, failure to cooperate may result in closing of the case. Temporary assistance is not retroactive. Certain temporary assistance may be furnished beyond the 90-day period if ACF/ORR finds that the circumstances involved necessitate or justify the furnishing of such assistance to repatriates and their dependents beyond the 90 day limit (42 United States Code (U.S.C.) 1313). In order to qualify for an extension of services, repatriates and/or representatives must submit their requests prior to the end of their 90-days of eligibility period in order to qualify. Necessary and timely supportive information must accompany the request for an extension. In addition, under the Program legislation, eligible individuals can apply for debt waivers and deferrals. Appropriate procedures are followed to make this determination. Repatriates should submit timely request for waivers and deferrals. Failure to submit timely requests may result in irreversible garnishment of available resources including federal and state benefits (e.g. SSI).

### **Child Welfare -- Early Education Partnerships to Expand Protective Factors for Children with Child Welfare Involvement**

The purpose of this FOA is to support school-based initiatives to implement multi-disciplinary interventions building on protective factors for children who are at risk of child abuse and neglect or are currently in the child welfare system. Applications will represent viable partnerships that include commit-

ments from child welfare and early childhood (e.g., Head Start, Early Head Start, State Pre-K) and may involve health and mental health organizations. These 17-month infrastructure building grants will improve collaboration between early childhood and child welfare programs with the goal of maximizing the number of children involved in the child welfare system who are enrolled in early childhood programs.

**Deadline: July 25, 2011**

**Maximum Grant: \$250,000**

#### **Community Services Block Grant (CSBG) Training and Technical Assistance (T/TA) Program: Leadership Development Center of Excellence**

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new grant to support a national CSBG Leadership Development Center of Excellence (LDCE). The LDCE will serve as a central gateway to high-quality and relevant leadership development T/TA activities, information, and resources, and develop a recommended approach for talent management within Community Action Agencies (CAAs) and other CSBG-eligible entities. The T/TA is intended to help these agencies prepare for transition into the next decade with the strongest talent available. This effort will focus on helping to ensure CAAs and other CSBG-eligible entities develop leadership with the broad range of skills (e.g., public administration, strategic planning, succession planning, financial management, human resource development, community relations, performance evaluation, and cultural competence) necessary for management of complex non-profit and public entities according to the high standards necessary for oversight of public funds. The core functions of the LDCE will be training and continuing education development and coordination, information collection and resource management, and information dissemination. Other key responsibilities of the LDCE will be to develop a strategy to partner with and support leadership development programs conducted through State CAA Associations and regional consortia.

**Deadline: July 26, 2011**

**Maximum Grant: \$200,000**

**Grant Link:** <http://www.acf.hhs.gov/grants/open/foa/view/HHS-2011-ACF-OCS-EQ-0189>

#### **National Human Trafficking Victim Assistance Program**

The central purpose of this cooperative agreement is to efficiently fund comprehensive case management services on a per capita basis to foreign victims and potential victims of a severe form of trafficking in persons seeking HHS certification in any location within the United States. Persons qualified for services under this grant (qualified persons) means victims of a severe form of trafficking in persons who have received certification from ORR or, in the case of child victims, letters of eligibility from ORR; potential victims of a severe form of trafficking who are seeking assistance to achieve HHS certification; aliens classified as a non-immigrant under Section 1101 (a)(15)(T)(ii) of title 8 of the U.S. Code; and minor dependent children of victims of severe forms of trafficking in persons or potential victims of trafficking. The Anti-Trafficking in Persons Division within the Department of Health and Human Services (HHS) Office of Refugee Resettlement (ORR) intends to accomplish this purpose by awarding a minimum of four cooperative agreements for a project period of 36 months (three years) with three 12-month budget periods. The initial award will be made for the first 12-month budget period. Continuation awards for subsequent budget periods will be subject to the availability of funds, satisfactory progress by the grantee and a determination that continued funding would be in the best interest of the Federal Government. Applicants must clearly define the dollar value of the per capita benefit to be provided to each qualified person served under this opportunity. The awarded organization must provide case management and referrals to qualified persons either directly through its own organization or through sub-award(s) to other organizations. The Director of ORR may give priority consideration to applications that demonstrate three or more years of experience in identifying and assisting both foreign victims of sex and labor trafficking, including the provision of, or management and oversight of, case management services, and providing technical assistance and trainings on human trafficking. The Director of ORR will give priority to those organizations with an established provider network for multiple states or metropolitan areas and capacity to provide case management services in locations with a demonstrated need for services. The Director of ORR will give priority to geographic locations with reported high incidence of human trafficking.

#### **Community Services Block Grant (CSBG) Training and Technical Assistance (T/TA) Program: Regional Performance and Innovation Consortia**

The Office of Community Services (OCS) within the Administration for Children and Families (ACF) announces that competing applications will be accepted for a new grant to establish Regional Performance and Innovation Consortia (RPIs). This cooperative agreement will fund ten RPIs to serve as regional focal points to lead T/TA capacity-building activities. RPIs will coordinate activities designed to strengthen the ability of State Associations to leverage resources; promote and sustain relationships between State Associations and the corresponding State CSBG Lead Agencies; and increase the capacity of State Associations to address the broad T/TA needs of CSBG-eligible entities. The core functions of the RPIs are T/TA coordination and information dissemination. For purposes of this funding opportunity, the well-defined geographic areas will align with established ACF Regions. Regional coordinators will be physically located in the geographic area they propose to serve. Funding will be limited to one award per region. Within each region, a single State Association will serve as the grantee. The grantees will be selected through a competitive review process. However, State Associations in each region may coordinate efforts and apply as consortia. Priority is given to applicant organizations with proven

expertise in the coordination regional T/TA activities and the provision of statewide T/TA focused on capacity-building and non-profit management. Support from other State Associations in the region will be a factor considered in the award decisions. State Association Partnerships to Support Capacity-Building and Exemplary Practices RPIs will collaborate with State Associations to support capacity-building and exemplary practices.

### **FedEx Grant Program**

The mission of the FedEx Social Responsibility department is to actively support the communities we serve and to strengthen our global reputation through strategic investment of our people, resources and network. FedEx is especially interested in supporting nonprofit organizations that request: 5% or less of a total project budget; contingency grants; or seed monies with the thought that other sources will contribute matching amounts. Organizations must show evidence of competent management, low administrative/fundraising expense ratios, and a nondiscriminatory program benefiting broad segments of the community. We heavily weigh the potential involvement of our employees in groups that seek our financial support. We have three core focus areas that our investments can impact in important and meaningful ways: Emergency and Disaster Relief, Child Pedestrian Safety, and Environmental Sustainability. FedEx has Corporate Neighbor Teams which serve as community service ambassadors. These teams work with many nonprofit organizations and act as a clearinghouse for requests for manpower assistance. They serve the following areas: Arts, Children/Youth, United Way, Adopt-A-School, Junior Achievement, Hearing-Impaired and Civic Affairs. Nonprofits needing volunteers should submit a written request.

### **Planning and Local Technical Assistance Programs Opportunity—FY 2011**

The Economic Development Administration's (EDA) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for growth and success in the worldwide economy. In implementing this mission pursuant to the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. § 3121 et seq.) (PWEDA), EDA advances economic growth by assisting communities and regions experiencing chronic high unemployment and low per capita income to create an environment that fosters innovation, promotes entrepreneurship, and attracts in-

creased private capital investment. Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance Programs. These programs will help communities develop the planning and technical expertise to support communities and regions in their comprehensive, entrepreneurial, and innovation-based economic development efforts. Resulting in increased private investment and higher-skill, higher-wage jobs in areas experiencing substantial and persistent economic distress, these programs are designed to enhance the competitiveness of regions.

#### **Office of Vocational and Adult Education (OVAE): Literacy Information and Communication System Regional Professional Development Centers Program**

The Literacy Information and Communication System (LINCS) Regional Professional Development Centers (RPDCs) program is authorized under title II of the Workforce Investment Act of 1998 (WIA), the Adult Education and Family Literacy Act (AEFLA). Through the LINCS

RPDC grants funded under this competition, we intend to support evidenced-based virtual or in-person adult education professional development (AEPD) activities in order to assist educators who provide adult education services or adult education instruction to adult learners (adult educators). In addition, the LINCS RPDC grants will enhance the quality of adult education and literacy nationwide by disseminating information to each eligible agency responsible for administering or supervising policy for adult education and literacy programs and to adult education and related organizations within each State and outlying area. **LOI due 7/11/11.**

#### **Disability and Rehabilitation Research Projects and Centers Program--Disability Rehabilitation Research Project (DRRP)--Disability in the Family**

The purpose of the DRRP program is to improve the effectiveness of services authorized under the Rehabilitation Act of 1973, as amended, by developing methods, procedures, and rehabilitation technologies that advance a wide range of independent living and employment outcomes for individuals with disabilities, especially individuals with the most severe disabilities. DRRPs carry out one or more of the following types of activities, as specified and defined in 34 CFR 350.13 through 350.19: research, training, demonstration, development, dissemination, utilization, and technical assistance. An applicant for assistance under this program must demonstrate in its application how it will address, in whole or in part, the needs of individuals with disabilities from minority backgrounds (34 CFR 350.40(a)). The approaches an applicant may take to meet this requirement are found in 34 CFR 350.40(b).

#### **Sodexo School Engagement Grants**

The programs funded through this grant will engage teachers and students, grades K-12, in learning about the incidence of childhood hunger in their community, and in leading meaningful activities that facilitate access to nutritious food for all children, especially those most at risk. The Sodexo School Engagement Grant is designed to address the need to ensure that every child in the United States grows up with access to enough nutritious food. The program will be implemented through a service-learning "Semester of Service" focused on childhood hunger.

**Deadline: August 15, 2011**

**Maximum Grant: \$5,000**

#### **Safe and Supportive Schools Programmatic Intervention**

Safe and Supportive Schools (S3) is a federal, three-year grant intended to support measurement of conditions for learning (known also as school climate) and targeted programmatic interventions to improve those conditions in selected high schools. The grant will target California's comprehensive high schools that demonstrate a strong commitment to improving school safety and climate, and that have the highest need in multiple areas of school climate, as measured by a school climate index. The S3 grant addresses issues of school safety and bullying, positive relationships and other learning supports, and student engagement.

**Deadline: August 31, 2011**

**Maximum Grant: \$175,000**

#### **STEMester of Service Grants**

The STEMester of Service incorporates YSA's Semester of Service framework to engage educators and students in addressing critical environmental and disaster preparedness needs and connecting them to STEM (science, technology, engineering, and math) curricula. The program is funded by Learn and Serve America, a program of the Corporation for National and Community Service. YSA is seeking grant applications from STEM educators at middle schools (grades 6, 7, and 8) with large populations of disadvantaged youth (50 percent or more of the students qualify for a free or reduced price lunch). Schools must be located in one of the nineteen states with the highest dropout rates: Alaska, Arizona, California, Colorado, Delaware, the District of Columbia, Georgia, Hawaii, Illinois, Louisiana, Michigan, Montana, Nevada, New Mexico, New York, North Carolina, Rhode Island, Washington, and Wyoming. After school programs with strong academic connections that engage middle school students are also eligible.

**Deadline: September 1, 2011**

**Maximum Grant: \$5,000**

#### **The Barbara Bush Foundation for Family Literacy**

The Barbara Bush Foundation for Family Literacy is pleased to announce our 2012 National Grant competition. The Foundation's grant-making program seeks to develop or expand projects designed to support the development of literacy skills for adult primary care givers and their children. A total of approximately \$650,000 will be awarded; no grant request should exceed \$65,000.

**Deadline: September 9, 2011**

**Maximum Grant: \$65,000**

#### **Learning Disabilities Foundation of America**

The Learning Disabilities Foundation of America supports the Learning Disabilities Association of America (LDA), whose goal is to advance the education and general welfare of children and adults with learning disabilities. Applications must be for projects which conform to the mission of the Learning Disabilities Foundation of America by responding to an unmet need in the field of learning disabilities. Funds are granted for charitable, scientific, literary or educational purposes or for the identification, ongoing evaluation and education of and services for children and adults with learning disabilities. With the exception of LDA committed funds, grants will not be made for routine organizational operations or for endowment funds. Examples of project areas that fall within this philosophy:

- Innovative research into the causes, the prevention and/or the alleviation of learning disabilities;
- Distinctive public awareness programs to advance public understanding of the needs of persons with learning disabilities;
- Innovative programs to advance the competence of persons with learning disabilities, and the support skills of their families, professional advisors, and employers.

#### **Education and Interdisciplinary Research**

Supports activities in conjunction with NSF-wide programs such as Faculty Early Career Development (CAREER), Research Experiences for Undergraduates (REU), and programs aimed at women, minorities, and persons with disabilities. Further information about all of these programs and activities is available in the Crosscutting Investment Strategies section of the NSF Guide to Programs. The program also supports activities that seek to improve the education and training of physics students (both undergraduate and graduate), such as curriculum development or physics education research directed towards upper-level or graduate physics courses, and activities that are not included in specific programs elsewhere within NSF. The program supports research at the interface between physics and other disciplines and extending to emerging areas. Broadening activities related to research at the interface with other fields, possibly not normally associated with physics, also may be considered.

#### **Presidential Awards for Excellence in Science, Mathematics and Engineering Mentoring (PAESMEM) Grant**

The PAESMEM Program seeks to identify outstanding mentoring efforts that enhance the participation of groups (i.e., women, minorities, and persons with disabilities) that are underrepresented in science, technology, engineering, and mathematics. The awardees serve as leaders in the national effort to develop fully the Nation's human resources in science, technology, engineering, and mathematics.

### **Advance: Increasing the Participation and Advancement of Women in Academic Science and Engineering Careers**

The goal of the ADVANCE program is to develop systemic approaches to increase the representation and advancement of women in academic science, technology, engineering and mathematics (STEM) careers, thereby contributing to the development of a more diverse science and engineering workforce. ADVANCE focuses on ensuring that women faculty with earned STEM degrees consider academia as a viable and attractive career option. Creative strategies to realize the ADVANCE program goal are sought from women and men. Members of underrepresented minority groups and individuals with disabilities are especially encouraged to apply. Proposals that address the participation and advancement of academic STEM women from underrepresented minority groups and women with disabilities are particularly encouraged. Proposal components that systemically enhance and provide access to international collaborations are encouraged. Proposals from community colleges, primarily undergraduate institutions, minority-serving women's colleges, and institutions primarily serving persons with disabilities are encouraged. In 2011-2012, this program will support the following types of ADVANCE Projects: Institutional Transformation (IT) Institutional Transformation awards are expected to include innovative systemic organizational approaches to transform institutions of higher education in ways that will increase the participation and advancement of women in STEM academic careers.

### **Transforming Undergraduate Education in Science, Technology, Engineering and Mathematics**

The Transforming Undergraduate Education in Science, Technology, Engineering, and Mathematics (TUES) program seeks to improve the quality of science, technology, engineering, and mathematics (STEM) education for all undergraduate students. This solicitation especially encourages projects that have the potential to transform undergraduate STEM education, for example, by bringing about widespread adoption of classroom practices that embody understanding of how students learn most effectively. Thus transferability and dissemination are critical aspects for projects developing instructional materials and methods and should be considered throughout the project's lifetime. More advanced projects should involve efforts to facilitate adaptation at other sites.

### **FINRA Investor Education Foundation**

The mission of the FINRA Investor Education Foundation is to provide underserved Americans with the knowledge, skills, and tools necessary for financial success throughout life. The FINRA Investor Education Foundation, formerly known as the NASD Investor Education Foundation, supports innovative research and educational projects that give investors the tools and information they need to better understand the markets and the basic principles of saving and investing. Currently the Foundation is especially interested in applications that focus on the following areas: creating new marketing and distribution channels for financial and investor education, helping Americans manage their finances and investments in retirement, meeting the financial and investor education needs of underserved audiences, using behavioral finance to improve saving and investing, and investor protection.

### **EMPLOYMENT**

#### **Susan Harwood Training Grant Program FY 2011**

The U.S. Department of Labor (DOL), Occupational Safety and Health Administration (OSHA) awards funds to nonprofit organizations to provide training and educational programs for workers and/or employers. Nonprofit organizations, including qualifying labor unions, community-based and faith-based organizations and employer associations, that are not an agency of a state or local government, are eligible to apply. Additionally, state or local government-supported institutions of higher education are eligible to apply in accordance with 29 CFR Part 95. Grants are awarded to provide training and education programs for workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in the workplace, and to inform workers of their rights and employers of their responsibilities under the Occupational Safety and Health (OSH) Act. This notice announces availability of approximately \$4.7 million for Susan Harwood Training Program grants under the following categories; Capacity Building Developmental, Capacity Building Pilot, Targeted Topic, and Training and Educational Materials Development grants.

#### **Projects of National Significance: Partnerships in Employment Systems Change**

The Administration on Developmental Disabilities (ADD) within the Administration for Children and Families (ACF), U.S. Department of Health and Human Services (HHS), announces the availability of 2.2 million of Fiscal Year (FY) 2011 funds for projects developed by consortia that demonstrate a collaborative approach to creating employment systems change at the state level on behalf of youth and young adults with developmental disabilities (DD) including youth and young adults with intellectual disabilities (ID). As defined by the American Association of Intellectual and Developmental disabilities, the term intellectual disability is characterized by significant limitations in intellectual functioning (reasoning,

learning, problem solving) and in adaptive behavior, which covers a range of everyday social and practical skills and originates before the age of 18. Funding through this announcement will be used to design and implement state-wide model demonstration projects through Partnerships in Employment Systems Change grants that stimulate and advance systems change in order to expand competitive employment in integrated settings for youth and young adults with DD including ID.

**Deadline: August 15, 2011**

### **H-1B Technical Skills Training Grants**

The Employment and Training Administration (ETA), U.S. Department of Labor (DOL or the Department), announces the availability of approximately \$240 million in funds for an H-1B Technical Skills Training Grants program. This grant program is designed to provide education, training, and job placement assistance in the occupations and industries for which employers are using H-1B visas to hire foreign workers, and the related activities necessary to support such training. H-1B technical skills training grants are financed by a user fee paid by employers to bring foreign workers into the United States under the H-1B nonimmigrant visa program. Grant awards will be made only to the extent that funds are available. The Department will make awards to two types of training grants: those that provide On-the-Job Training (OJT) to all participants and those that use other training strategies. Of the awards granted through this Solicitation, at least \$150 million will be awarded to grantees that provide OJT to all participants. Between the two types of grants awarded, DOL intends to fund at least \$45 million to applicants proposing to provide training for occupations in the health care industry and at least \$60 million to applicants that serve long-term unemployed individuals. While this Solicitation is open, DOL anticipates that additional funding will accrue for this grant program. The Department expects to award approximately 75-100 grants ranging from \$1 million to \$5 million with up to a 48-month period of performance. The Department will award grants to a partnership of private and public sector entities as defined in ACWIA. This partnership must include at least two entities from among the following groups: (1) businesses or business-related nonprofit organizations, such as trade associations; (2) education and training providers, including community colleges and other community-based organizations; and (3) entities involved in administering the workforce investment system established under Title I of the WIA, and economic development agencies.

#### **Clean Cities Community Readiness and Planning for Plug-In Electric Vehicles and Charging Infrastructure**

The President has a goal of putting 1 million advanced technology vehicles on the road in the United States by 2015. In support of this goal and emphasizing electricity as a transportation fuel, this Funding Opportunity Announcement seeks projects to plan and implement policies, procedures, and incentives that facilitate that development. The planning and policy activities will prepare communities for successful deployment and implementation of plug-in electric drive vehicles. Overall, this effort will help to decrease the nation's dependence on petroleum and reduce greenhouse gas emissions by accelerating the deployment of plug-in electric drive vehicles and electric vehicle supply equipment (EVSE).

#### **Brownfield Economic Development Initiative (BEDI)**

BEDI funds are used to enhance the security of a loan guaranteed by HUD under Section 108 of the Housing and Community Development Act of 1974, as amended, for the same brownfields economic development project, or to improve the viability of a brownfields economic development project financed with the Section 108-guaranteed loan, in order to stimulate economic development by local governments and private sector parties at brownfields sites and to return those sites to productive economic use. All BEDI grants must be used in conjunction with a new Section 108-guaranteed loan commitment. HUD encourages brownfields economic development projects that propose the redevelopment of a brownfield site through new investments by identified private sector parties in addition to BEDI/Section 108 financing and projects that will directly result in new business or job creation, increases in the local tax base or other near-term, measurable economic benefits. BEDI is designed to help local governments redevelop brownfields, defined in this NOFA as abandoned, idled, or underutilized real property, including industrial and commercial facilities, where expansion or redevelopment is complicated by the presence or potential presence of environmental contamination. A BEDI grant award will be conditioned upon, and must be used in conjunction with, a new (i.e., not previously approved) Section 108-guaranteed loan commitment. Both Section 108 loan guarantee proceeds and BEDI grant funds are initially made available by HUD to units of general local government eligible for assistance under HUD's Community Development Block Grant (CDBG) program.

### **U.S. Geological Survey National GAP Analysis Program**

The Gap Analysis Program (GAP) of the U.S. Geological Survey (USGS) is offering grant and/or cooperative agreement opportunities to States, local governments, or other recipients for projects performed in partnership with USGS GAP. The GAP has developed project partnerships across the country for nearly twenty years. The program operates under the broad authorities of the Fish and Wildlife Coordination Act (16 USC 661), the Land and Remote Sensing Policy Act of 1992 (15 USC 5657a(2)) and the Organic Act of the U.S. Geological Survey (43 USC 36d). Project proposals must be consistent with the program's authorities, and with the specific program objectives and annual priorities itemized in this announcement and its addenda.

### **Earthscope**

The EarthScope Program provides a framework for broad, integrated studies across the Earth sciences, including research on fault properties and the earthquake process, strain transfer, magmatic and hydrous fluids in the crust and mantle, plate boundary processes, large-scale continental deformation, continental structure and evolution, and composition and structure of the deep Earth. In addition, EarthScope offers a centralized forum for Earth science education at all levels and an excellent opportunity to develop cyberinfrastructure to integrate, distribute, and analyze diverse data sets. The EarthScope Facility, consisting of the Plate Boundary Observatory (PBO), the San Andreas Fault Observatory at Depth (SAFOD), and the USArray, is a multi-purpose array of instruments and observatories that greatly expands the observational capabilities of the Earth sciences and permits us to advance our understanding of the structure, evolution and dynamics of the North American continent. This Solicitation calls for single or collaborative proposals to conduct scientific research associated with the EarthScope Facility and support activities that further the scientific and educational goals of EarthScope.

### **National Forest Foundation Community Stewardship Projects**

The National Forest Foundation, the nonprofit partner of the U.S. Forest Service, is committed to facilitating local involvement and encouraging community participation in forest stewardship to enhance the viability of natural resources. The NFF is soliciting proposals for its Matching Awards Program, a grant program that provides matching funds for direct action-oriented on-the-ground conservation and citizen-based monitoring projects on or around national forests and grasslands. The NFF encourages organizations to position their proposed projects within at least one of its areas of programmatic emphasis — wildlife habitat improvement, recreation, watershed health and restoration, and community-based forestry. The NFF will accept applications from nongovernmental, nonprofit 501(c)(3) organi-

zations, Native American tribes, and universities doing on-the-ground conservation work that benefits national forests or grasslands in the U.S. All awards require at least a 1:1 cash match of non-federal funds. MAP funding is available to support specific conservation and restoration projects and does not provide general programmatic support. Projects must be completed within one year.

### **Smart Grid Capable Electric Vehicle Supply Equipment (EVSE)**

The Office of Electricity Delivery and Energy Reliability (OE) is focused on the development of electric vehicle supply equipment (EVSE) that are capable of implementing smart charging of electric vehicles (EVs), referred to as smart grid-capable EVSE. A goal of the OE Smart Grid R&D Program is to develop and implement smart grid to support transportation electrification. A near-term objective of the program is to reduce electric charging infrastructure cost.

### **SunShot Initiative: Rooftop Solar Challenge to Induce Market Transformation**

The objective of this Funding Opportunity Announcement (FOA) for a Rooftop Solar Challenge is to achieve measurable improvements in market conditions for rooftop photovoltaics (PV) across the United States, with an emphasis on streamlined and standardized permitting and interconnection processes. DOE is making a significant push to address these Balance of System issues utilizing a two-phased approach. DOE anticipates providing up to \$12.5M to up to 25 awardees to accomplish the Phase 1 goals of this funding opportunity.

### **Water and Waste Revolving Fund Grants**

Drinking water systems are basic and vital to both health and economic development. With dependable water facilities, rural communities can attract families and businesses that will invest in the community and improve the quality of life for all residents. Without dependable water facilities, the communities cannot sustain economic development. Rural Development provides financial and technical assistance to help com-

munities bring safe drinking water and sanitary, environmentally sound waste disposal facilities to rural Americans in greatest need. It supports the sound development of rural communities and the growth of our economy without endangering the environment. The Revolving Fund (RFP) Grant Program has been established to assist communities with water or wastewater systems. Qualified private non-profit organizations will receive RFP grant funds to establish a lending program for eligible entities. Eligible entities for the revolving loan fund will be the same entities eligible to obtain a loan, loan guarantee, or grant from the Water and Waste Disposal loan and grant programs administered by Rural Development. As grant recipients, the non-profit organizations will set up a revolving loan fund to provide loans to finance predevelopment costs of water or wastewater projects, or short-term small capital projects not part of the regular operation and maintenance of current water and wastewater systems. The amount of financing to an eligible entity shall not exceed \$100,000.00 and shall be repaid in a term not to exceed 10 years. The interest rate on loans made under RFP shall be determined in the approved grant work plan.

**Deadline: July 25, 2011**

#### **WaterSMART Applied Science Grants for the Desert Landscape Conservation Cooperative**

The objective of this funding opportunity announcement (FOA) is to invite States, tribes, irrigation districts, water districts, universities, nonprofit research institutions, nonprofit organizations, and other entities with water or power delivery authority to leverage non-Federal monies and resources by cost sharing with the Bureau of Reclamation on applied science projects, to meet shared priorities with Desert LCC partners, and that are designed to enhance the management of natural and cultural resources in a changing climate. This includes analyzing the impacts of climate change and other landscape scale stressors on natural or cultural resources that affect or are affected by water resources management, and developing tools to assess and adapt to those impacts within the boundaries of the Desert LCC. Eligible projects are intended to focus on the shared priorities of Reclamation and LCC partners identified through the formation of the Desert LCC.

#### **Innovative Manufacturing Initiative**

The purpose of this Funding Opportunity Announcement (FOA), DE-FOA-0000560 Innovative Manufacturing Initiative, is to solicit Applications for funding cost-shared research and development of innovative manufacturing processes and materials technologies to advance the clean energy economy by increasing industrial and manufacturing energy efficiency, deliver the breakthroughs that the Nation needs to significantly reduce energy and carbon intensity throughout the economy over the coming decades, and revitalize existing manufacturing industries and support the development of new products in emerging in-

dustries. This FOA seeks Applications to select and fund research and development (R&D) projects beginning as early as Technology Readiness Level 2 (Applied Research) with efforts up through Technology Readiness Level 6 (Prototype) to advance the engineering and development of transformational manufacturing process and materials technologies that significantly improve the competitive position of U.S. industry. In this FOA, innovative manufacturing technologies are broadly defined as new manufacturing processes, technologies, and materials that drastically reduce energy use in manufacturing without sacrificing product quality, production throughput, or system economics.

#### **Research and Demonstration of Innovative Drinking Water Treatment Technologies in Small Systems**

The U.S. Environmental Protection Agency (EPA), as part of its Science to Achieve Results (STAR) program, is seeking applications proposing to conduct research necessary to identify, develop and demonstrate novel and innovative treatment technologies and approaches for small public drinking water systems. Successful technologies should be robust, sustainable, and be able to treat or mitigate groups of contaminants or contaminant precursors in drinking water sources and systems. EPA is seeking new, or innovative, modifications of existing treatment technologies that can perform significantly better than current technologies. These technologies may include those which are used to retrofit or augment existing treatment trains; treatment practices or technologies aimed at contaminant or contaminant precursor reduction in source waters; and technologies used within the distribution system including point-of-use (POU) devices.

#### **Environmental Grants**

Outdoor clothing and gear company Patagonia provides support for environmental work through grants to nonprofit organizations. The company's environmental grant program supports small, grassroots activist organizations that have provocative direct-action agendas and are working on multi-pronged campaigns to preserve and protect the environment. The program seeks to fund work that is action-oriented, builds public involvement and support, is strategic, focuses on root causes, accomplishes specific goals and objectives, and demonstrates a commitment to long-term change. The company does not fund organizations without 501(c)(3) status or an eligible fiscal sponsor. Grants will not be provided for general environmental education efforts; land acquisition, land trusts, or conservation easements; research (unless it is in direct support of a developed plan for specific action to alleviate an environmental problem); environmental conferences; endowment funds; political campaigns; or green building projects.

**Deadline: August 31, 2011**

**Maximum Grant: \$80,000**

### **Interlux Waterfront Challenge**

Interlux will award \$50,000 in grants to organizations that create sustainable waterfront environmental improvements in their communities. Eight grants ranging from \$4,500 to \$20,000 will be awarded. The Waterfront Challenge is a national competition to encourage people who care about their local waterfront—including lakes, rivers, streams and oceans – to improve their local waterfront. A five-judge panel of marine industry leaders, with the help of boaters voting on Facebook.

**Deadline: August 31, 2011**

### **National Wildlife Refuge Friends Group Grant Program**

The National Wildlife Refuge Friends Group Grant Program provides grants to nonprofits working to assist the U.S. Fish and Wildlife Service's National Wildlife Refuge System by acting as effective co-stewards of the nation's important natural resources within the system. The program, which is administered by the National Fish and Wildlife Foundation, provides competitive seed grants for start-up, capacity-building, and project-specific purposes. In addition, this year's program will also prioritize proposals to initiate or improve birding opportunities for refuge visitors. Competitive proposals will specify particular benefits to refuge birders and visitors who enjoy birds.

**Deadline: September 2, 2011**

### **Explore Fund™**

Outdoor gear company the North Face, a division of VF Outdoor, Inc., has launched the Explore Fund, a grant program to support U.S. nonprofit organizations that help young people connect to the outdoors. The program was established in 2010 as part of the company's mission to encourage an active healthy lifestyle and protection of the nation's natural landscapes by creating a stronger connection with the outdoors.

Through its initial grant cycle, the program awarded a total of \$125,000 to fifty-two projects across the U.S. The company has committed to granting an additional \$125,000 in Explore Fund grants to nonprofit organizations in 2011. Grants of up to \$2,500 each will be awarded to organizations that help children connect to nature, increase access to both front and backcountry recreation, and provide education for both personal and environmental health. The proposed program or project should focus on a specific community or place of interest.

**Deadline: October 5, 2011**

### **Water Sustainability and Climate**

The goal of the Water Sustainability and Climate (WSC) solicitation is to understand and predict the interactions between the water system and climate change, land use (including agriculture, managed forest and rangeland systems), the built environment, and ecosystem function and services through place-based research and integrative models. Studies of the water system using models and/or

observations at specific sites singly or in combination that allow for spatial and temporal extrapolation to other regions, as well as integration across the different processes in that system are encouraged, especially to the extent that they advance the development of theoretical frameworks and predictive understanding. Specific topics of interest include:\* Developing theoretical frameworks and models that incorporate the linkages and feedbacks among atmospheric, terrestrial, aquatic, oceanic, and social processes that can be used to predict the potential impact of (1) climate variability and change, (2) land use and (3) human activity on water systems on decadal to centennial scales in order to provide a basis for adaptive management of water resources.\* Determining the inputs, outputs, and potential changes in water budgets and water quality in response to (1) climate variability and change, (2) land use and (3) human activity, and the effect of these changes on Biogeochemical cycles, water quality, long-term chemical transport and transformation, terrestrial, aquatic and coastal ecosystems, landscape evolution and human settlements and behavior.\* Determining how our built water systems and our governance systems can be made more reliable, resilient and sustainable to meet diverse and often conflicting needs, such as minimizing consumption of water for energy generation, industrial and agricultural/forest rangeland production and built environment requirements, reuse for both potable and non-potable needs, ecosystem protection, and flood control and storm water management. This activity enables interagency cooperation on one of the most pressing problems of the millennium—water sustainability—how it is likely to affect our world, and how we can proactively plan for its consequences.

### **Waste Management Charitable Giving**

Waste Management supports causes that promote civic pride, economic development and revitalization, and innovative problem-solving initiatives. Waste Management is most likely to support projects/organizations in the following areas: (1) Environment: Waste Management is committed to helping provide renewal resources to reduce our dependence on fossil fuels, and to conserving and maintaining wetlands, wildlife habitats and green spaces for people's enjoyment. Waste Management supports organizations and programs that preserve and/or enhance natural resources. (2) Environmental Education: Waste Management prefers to support environ-

mental education programs targeted at middle and high school students. This includes environmental and science related projects, science fairs, Earth Day projects and others. (3) Community: Waste Management is committed to enhancing communities through programs that help make them cleaner and better places to live.

#### **Dr. Robert C. and Tina Sohn Foundation**

The Dr. Robert C. and Tina Sohn Foundation has been formed to continue the vision and legacy of its founders. The Sohns lived their lives connected to both the spiritual and temporal worlds, committed to healing the spirit and at the same time preserving the planet and our physical beings. Their vision of a "wholistic" life, lived synergistically with nature and the environment, in which all people can breathe clean air, eat wholesome organic food, and be exposed to the wonders of music, dance and literature, continues in the Foundation. The Foundation will support a broad spectrum of causes which support the environment, alternative health care and the arts. The Foundation is particularly interested in funding educational projects which bring an awareness of the environment, alternative health care and the arts to those who are underserved, particularly to young people.

#### **Charette Grants**

An initiative of Enterprise Community Partners, Enterprise Green Communities provides funds and expertise to enable affordable housing developers to build and rehabilitate homes that are healthier, more energy efficient, and better for the environment. In addition to loans and other funding options, Green Communities offers Charrette and Sustainability grants to help cover the costs of planning and implementing green components of affordable housing developments, as well as tracking their costs and benefits. Charrette grants funding for affordable housing developers to engage in integrative design. A Green Communities charrette involves an intense working session that brings together a diverse group of housing development professionals as well as residents, technical experts, funders, policy makers, and community stakeholders to integrate sustainable green design principles into affordable housing developments. By supporting charrettes at the schematic design phase, Enterprise seeks to help developers establish green goals as early as possible so that the most cost-effective green strategies can be incorporated in the building and site plans. Projects applying for pre-development charrette funds must be in the early stages of planning or schematic design phase of development.

**Deadline: Open**

**Maximum Grant: \$5,000**

**Grant Link:** <http://www.greencommunitiesonline.org/tools/funding/grants/>

#### **Sustainability Training Grants**

Green Communities offers Sustainability Training Grants for affordable housing developers to maximize the health, economic and environmental benefits of green development throughout the project's life cycle. This grant program

provides an opportunity to transfer the design knowledge that informed the Green Communities planning and construction process to the residents, as well as operations and management staff. Funding is available to cover the cost of implementing a training program and related tools that support green resident engagement and operations.

### **FOOD and NUTRITION**

#### **Innovative Food Defense Projects**

Food defense is a term used to describe activities associated with protecting the nation's food supply from intentional contamination. The Food and Drug Administration has adopted 3 broad strategies that encompass its food defense activities: (1) Awareness (Prevention/Preparedness): Increase awareness among federal, state, local, and tribal governments, and the private sector, to better understand where the greatest vulnerabilities lie and develop effective protection/mitigation strategies to shield the food supply from intentional contamination; (2) Response: Develop the capacity for a rapid coordinated response to a food borne terrorist attack; and (3) Recovery: Develop the capacity for a rapid coordinated recovery from a food borne terrorist attack. The specific goal of this program is to generate products that complement, develop, or improve State and local food defense programs which may then applied to national food defense programs.

### Sustainable Comprehensive Tobacco Cessation and Prevention Clinical Program for Low Socio-economic Status Women of Childbearing Age - FY11

The purpose of this project is to implement and to evaluate the success of tobacco cessation and prevention programs in selected Federal Clinical Partners to address tobacco use among LSES women of childbearing age. The Federal Clinical Partners are the Health Resources and Services Administration (HRSA) and/or Indian Health Service (IHS) federally-funded healthcare clinics, and/or Medicaid-reimbursed providers. Successful applicants will design tobacco cessation and prevention programs to be implemented in the Federal Clinical Partners organizations that: 1. Are based on Treating Tobacco Use and Dependence, Clinical Practice Guideline, 2008 Update (Public Health Service Guideline); 2. Employ implementation process steps that will ensure project sustainability after the grant period ends for the Federal Clinical Partners; 3. Ensure that a certified tobacco specialist uses the 5As (Ask, Advise, Assess, Assist, Arrange; see the Public Health Service Guideline for detailed information) with every patient; 4. Ensure LSES women of childbearing age identified as tobacco users are offered brief intervention, counseling, follow-up, and other cessation services listed in the Public Health Service Guideline; and, 5. Demonstrate increased quit attempts, abstinence, and/or cessation for LSES women of childbearing age using the services of the Federal Clinical Partners.

### Novel Interventions and Collaborations to Improving the Safe Use of Medications

As part of FDA's Safe Use Initiative: Collaborating to Reduce Preventable Harm, FDA will identify drug/drug classes or therapeutic areas associated with preventable harm. The mission of the Safe use Initiative is to seek solutions to preventable harm associated with suboptimal use of regulated

prescription and over the counter medications. The approach is to involve cross sector collaborations with other parts of healthcare committed to medication safety. This Funding Opportunity Announcement (FOA), issued by FDA, will provide resources for research to characterize preventable harm associated with specific FDA regulated drugs, identify sources (root causes) of the preventable harm and for the development and implementation of interventions to reduce the preventable harm.

#### **Community Clinical Oncology Program Groups**

This funding opportunity announcement (FOA) solicits applications from institutions/organizations that propose to serve as accrual groups for the NCI-supported Community Clinical Oncology Program (CCOP) Network. CCOP was established in 1983 to develop and conduct state-of-the-art cancer prevention, control and treatment clinical trials with significant involvement of community oncologists and populations they serve. The CCOP Network mission includes: (1) accelerating development of interventions to prevent and treat cancer and its symptoms by increasing accrual to trials; (2) fostering quality care in the community through adoption of results from clinical trials; and (3) increasing the involvement of minority and underserved patient/participant populations in cancer clinical trials and associated research. The CCOP Network consists of three components each with its own FOA.

#### **Promoting Health Policy and Disease Prevention**

The purpose of the program is to create, evaluate, test, and otherwise inform health policy development that will aid CDC in creating and advancing health policies that positively affect health at the population level. The objectives of this cooperative agreement support and align with Healthy People 2020 as it is expected to serve multiple program areas as well as support cross-cutting initiatives. This cross-cutting initiative

will: identify evidence-based and promising policy interventions that improve population health by conducting analyses, reviewing published literature and/or assessing case studies at the state, tribal, territorial, local, national level, and writing policy briefs or memos on these evidence-based and promising policies. Policy interventions may include health and cross-sector policies that impact health in a range of settings, such as policies that encourage healthier food choices in school or workplace cafeterias, or incorporate avenues for physical activity into plans for local residential or commercial development. Develop and implement methods to promulgate and replicate successful or promising policy interventions. Activities may include developing and implementing a strategy to communicate the value of a policy intervention or to spotlight or acknowledge successful policy implementation by convening a lecture series, developing educational and communications materials, coordinating an awards program to recognize successful policy efforts and initiatives, or placing earned media pieces. Activities may also include, developing key messages that convey the value of specific policies to support policy implementation or identifying model cross-sector stakeholder engagement strategies to inform policy formulation and implementation, including coordination of stakeholders in local and state government, business and private industry, public health, and health care delivery. Analyze, assess, and formulate, policy approaches based on evidence and current research on feasible, effective policies that improve health. Solicit stakeholder input and subject matter expertise to assist in drafting of relevant, feasible, and evidence-based policies.

#### **Prevention of HIV Transmission/Acquisition through a better understanding of Reproductive Health**

This Funding Opportunity Announcement (FOA) issued by the Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), National Institutes of Health (NIH), invites Research Project Grant (R01) applications to further our understanding of HIV acquisition/transmission by increasing our knowledge regarding the intersection between reproductive health and HIV prevention. The emphasis of the FOA is to encourage comprehensive behavioral-biomedical approaches that can lead to new insights in HIV prevention research. This FOA is not intended to fund drug discovery or large scale clinical trials.

#### **Rehabilitation Engineering Research Centers (RERCs): RERC on Low vision and Blindness**

Rehabilitation Engineering Research Centers Program (RERCs) The purpose of the RERC program is to improve the effectiveness of services authorized under the Rehabilitation Act by conducting advanced engineering research on and development of innovative technologies that are designed to solve particular rehabilitation problems, or to remove environmental barriers. RERCs also demonstrate and evaluate such technologies, facilitate service delivery system changes, stimulate the production and distribution of new technologies and equipment in the private sector, and provide training opportunities. Pre-Application Meeting: July 15, 2011

**Deadline: August 15, 2011**

**Maximum Grant: \$950,000**

#### **Aetna Foundation and Health 2.0 Announce Developer Challenge to Help Health Experts in Obesity Field Make Better Use of Government Data**

The Aetna Foundation, the philanthropic arm of Aetna Inc., in partnership with Health 2.0, has issued a challenge to solicit new interactive browser-based applications designed to make important federal data about obesity and related data sets more accessible and usable for health services researchers, public health officials, policy makers, and other leaders in the fight against obesity. The Aetna Foundation Challenge is designed to drive the creation of innovative tools that will connect various government data sets; enable predictive modeling and scenario analysis; transform data into meaningful visualizations such as maps, charts, and illustrations; facilitate the creation of presentation slides; and utilize social media to develop and share information on factors that can affect obesity.

**Deadline: August 15, 2011**

**Maximum Grant: \$25,000**

#### **Healthy Smiles, Healthy Children: the Foundation of the American Academy of Pediatric Dentistry**

Healthy Smiles, Healthy Children: the Foundation of the American Academy of Pediatric Dentistry seeks to support and promote services, education, and research with potential to improve the oral health of infants and children through adolescence, including those with special health care needs. HSHC Access to Care Grants are matching/challenge grants of up to \$20,000 per year to support local service initiatives that provide dental care to underserved children. Special consideration will be given to programs that have demonstrated success and/or have potential for replication in other communities. Initiatives demonstrating collaboration with other institutions and organizations will be given priority consideration. HSHC funds may be applied to cover costs of clinic supplies and instruments, patient and parent education materials, take-home supplies (toothbrushes, toothpaste, etc.), education and/or outreach to recruit dentist participation in program activities, and other activities with clear, direct impact on child oral care. Applicants must be U.S. or U.S. territory-based organizations providing care to children in the U.S. or a U.S. territory. Eligible applicant organizations include nonprofit 501(c)(3) and 501(c)(6) organizations; local health jurisdictions; county health departments; hospitals and clinics; state government agencies; colleges/schools of dentistry; colleges/schools of medicine (pediatric and family medicine departments only); national, state, and local dental societies; national, state, and local pediatricians' groups; and state and local gynecological/obstetric groups.

#### **Systems Biology Approaches in HIV/AIDS and Substance Use**

The purpose of this Funding Opportunity Announcement (FOA) is to encourage systems biology approaches to address critical questions in HIV/AIDS and the potential impact of substance use.

**Deadline: August 17, 2011**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-DA-12-009.html>

#### **National Adult Protective Services Resource Center**

Adult Protective Services (APS) include interventions, programs, processes, and services implemented to insure the safety and well-being of elders and adults with disabilities who have been or are at risk of being mistreated or neglected, who are unable care for themselves or protect themselves from harm, and who have no one to assist them. Interventions provided by APS include, but are not limited to, receiving reports of adult abuse, exploitation or neglect, investigating these reports, and case planning, monitoring and evaluation. The purpose of this APS Resource Center is to provide APS systems, agencies, and professionals with current and relevant information and support to enhance the quality, consistency, and effectiveness of APS programs across the country.

#### **Addressing Health Disparities in Maternal and Child Health through Community-Based Participatory Research**

The Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD), requests applications to implement developmental community-based participatory research (CBPR) projects planned and developed by recipients of the Phase I Academic-Community Partnerships Conference Series awards under PAR-08-106 and RFA-HD-06-019. This FOA provides support for community based participatory research (CBPR) projects that were identified and planned during the Phase I grant award. Only one CBPR project will be supported per grant award. The areas of emphasis include: infant mortality; sudden infant death syndrome; fibroid tumors; childhood, adolescent, and/or adult obesity; literacy; techniques for outreach and information dissemination; pediatric and maternal HIV/AIDS prevention; and violence prevention.

**Deadline: August 19, 2011**

#### **Systems Approach to Immunity and Inflammation**

The primary objective of the program is to use a systems biology approach to develop a comprehensive understanding of innate or adaptive immune responses to infection with and/or vaccination against one or more pathogenic microbes, with a focus on NIAID Emerging/Re-emerging Pathogens of concern to human health. The initiative will support quantitative analyses that will identify and measure dynamic networks regulating immune responses. The basis of the research program will be genome wide screens of mutant mice for identifi-

cation of key regulatory immune response genes. The studies will be complemented by detailed genomics, proteomics, computational biology and bioinformatics approaches that focus on transcriptional regulation and signaling mechanisms. Investigators will analyze a subset of the newly discovered murine immune regulatory genes in human correlation studies.

### **Comprehensive HIV Prevention Programs for Health Departments**

The purpose of this FOA is to support implementation of high impact, comprehensive HIV prevention programs to achieve maximum impact on reducing new HIV infections. In accordance with the NHAS, this FOA focuses on addressing the national HIV epidemic, reducing new infections, increasing access to care, improving health outcomes for people living with HIV, and promoting health equity. The aforementioned will be achieved by enhancing public health departments' capacities to increase HIV testing, refer and link HIV positive persons to medical care and other essential services, and increase program monitoring and accountability. **LOI due 7/14/11**

**Deadline: August 30, 2011**

**Maximum Grant \$2,000,000**

### **A-T Children's Project**

The A-T Children's Project strives to assist respected scientists in developing a clearer understanding of ataxia-telangiectasia. The Foundation is determined to find a timely cure, or life-improving treatments, for this serious disease. Proposals from junior investigators, from scientists in related disciplines, and from individuals with innovative new ideas for A-T research are particularly encouraged, as are laboratories and teams working together from industry as well as teaching universities. The Project provides competitive grant awards for basic and translational research grants related to A-T. Applicants please note that the A-T Children's Project is currently focusing its funding efforts on grant proposals that are relevant to a therapeutic intervention for A-T and/or proposals that facilitate translational or clinical research for this disease. As such, these types of applications will be given priority funding. A Letter of Intent is not required. However, prior to submission of a full-length proposal, applicants seeking Scientific Advisory Board input may submit a Letter of Intent directly to the A-TCP Science Coordinator at [cynthia@atcp.org](mailto:cynthia@atcp.org). This letter (not to exceed two pages) should include a brief abstract describing the proposed research, specific aims and an estimated budget. Submission deadlines for grant applications are September 1 and March 1.

**Deadline: September 1, 2011**

**Maximum Grant: \$750,000**

**Grant Link:** <http://www.atcp.org/page.aspx?pid=625>

### **Grants for Early Medical/Surgical Specialists Transition to Aging Research**

This program is intended for early career physicians trained in medical or surgical specialties to establish a research track record in aging-related aspects of their specialty. The award will provide an opportunity to gain skills and experience in aging research and help investigators establish an independent program of research in their clinical field relevant to geriatric or gerontologic science.

**Deadline: September 3, 2011 (LOI)**

**Maximum Grant: \$50,000**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-AG-12-002.html>

### **Center for HIV/AIDS Vaccine Immunology and Immunogen Discovery**

This FOA, issued by the National Institute of Allergy and Infectious Diseases (NIAID), National Institutes of Health, solicits grant applications that propose to establish a Center for HIV/AIDS Vaccine Immunology and Immunogen Discovery (CHAVI-ID) to support a coordinated, multidisciplinary team of researchers focused on multi-pronged approaches to accelerate HIV vaccine development by addressing key immunological roadblocks to the discovery and development of a safe and effective HIV vaccine.

**Deadline: September 8, 2011**

**Maximum Grant: \$19,000,000**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-AI-11-002.html>

### **NINDS Research Education Programs for Residents and Fellows in Neurology, Neurosurgery, Neuropathology and Neuroradiology**

This FOA solicits Research Education Grant (R25) applications from institutions/organizations that propose to support the development and/or implementation of programs that relate to research education and training of clinical residents and fellows to foster careers as physician-scientists. The PD/PI (see below) must have a staff appointment in a Department of Neurology, Neurosurgery or Pathology and participants in the research education program must be residents or fellows in neurology, neurosurgery, neuropathology or neuroradiology.

**Deadline: September 9, 2011**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-NS-12-003.html>

### **Research to Aid Persons with Disabilities**

The Research to Aid Persons with Disabilities (RAPD) program supports research that will lead to the development of new technologies, devices, or software for persons with disabilities. Research may be supported that is directed to the characterization, restoration, and/or substitution of human functional ability or cognition, or to the interaction of persons with disabilities and their environment. Areas of particular recent interest are disability-related research in neuroscience/neuroengineering and rehabilitation robotics. Emphasis is placed on significant advancement of fundamental engineering and scientific knowledge and not on incremental improvements. Proposals should advance discovery or innovation beyond the frontiers of current knowledge in disability-related research.

### **Effectiveness of Treatment for Oral Diseases in Medically Compromised Patients**

This Funding Opportunity Announcement encourages exploratory / developmental clinical research related to determining outcomes of prevention and treatment strategies for oral diseases in persons with medical conditions known to severely compromise oral health.

**Deadline: September 18, 2011**

**Maximum Grant: \$200,000**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-DE-12-007.html>

### **Department of Defense HIV/AIDS Prevention Program**

This BAA is intended to solicit existing partners and establish new partners to support the development of a DHAPP.org web site. This site will serve as a source for program updates, with both a public side for general information, as well as password protected privacy modules for compartmentalized and specific partner information and access. Capacities of the site should include a file structure to upload and download files, internet and email messaging, as well as database functions to support information gathering and analysis.

**Deadline: September 30, 2011**

**Grant Link:** <http://www.grants.gov/search/search.do;jsessionid=h3KZNflp6GTJwp0HVgKxJbtLY1XxjGH1WtnTC2JbP6NrFQWs2phJ!-760305593?oppld=86535&mode=VIEW>

### **Specialized Centers of Research (SCOR) on Sex Differences**

The ORWH and participating organizations and institutes seek to expand the Specialized Centers of Interdisciplinary Research (SCOR) on Sex Differences. These centers will provide opportunities for interdisciplinary approaches to advancing studies in sex differences research. Each SCOR should develop a research agenda bridging basic and clinical research underlying a health issue that affects women.

**Deadline: October 4, 2011**

**Maximum Grant: \$750,000**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-OD-11-003.html>

### **Strategies for the Protection of Pregnant Women and Infants Against Infectious Diseases**

The purpose of this FOA is to encourage new and innovative mechanistic studies of pathogens that impact placental function and fetal well-being, with the long-term goal of informing the development of interventions against these pathogens and reducing the burden of infection-related pregnancy loss and infant morbidity and mortality.

**Deadline: October 13, 2011**

**Maximum Grant: \$350,000**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-AI-11-036.html>

### **Integration of Drug Abuse Prevention and Treatment in Primary Care Settings**

Efforts to prevent, detect, and treat drug abuse and addiction and its consequences can be improved by integrating existing evidence-based approaches into primary care settings. NIDA solicits translation and implementation research project applications to identify the most effective strategies and service delivery models for accomplishing

this goal. Applicants should propose hypothesis-driven studies to achieve the integration of substance abuse prevention interventions and/or treatment services in public or private-sector settings where patients receive primary care services including office-based practice settings, family practice, pediatric and adolescent medicine, obstetrics, general practice, and emergency departments.

**Deadline: October 13, 2011**

**Maximum Grant: \$500,000**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-DA-12-008.html>

### **Collaborative Research on the Transition From Acute to Chronic Pain: New Models and Measures in Clinical and Preclinical Pain Research**

The overall goal of this FOA is to stimulate preclinical and clinical research that will accelerate our understanding of the biological and behavioral determinants driving the transition from acute pain to chronic pain disorders. An understanding of the mechanisms and risk factors that determine who will transition to a chronic pain state is necessary in order to intervene in this transition and to design new, effective treatments to resolve acute pain before it becomes chronic. The objectives of this FOA are to: 1) assemble research teams with expertise in basic and clinical pain research and related expertise outside the pain field that will provide novel, collaborative, multidisciplinary approaches to answer crucial questions about the transition from acute to chronic pain; 2) discover biological and behavioral mechanisms that drive the transition from an acute pain state to a chronic dysfunctional pain condition; 3) develop new clinical and preclinical models and measures of pain that will be essential to identify and characterize these mechanisms. Studies that involve considerable risk but with the potential for breakthroughs in the field are strongly encouraged.

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-DE-12-003.html>

### **Male Reproductive Health Research (MRHR) Career Development Program [K12]**

The purpose of this FOA is to announce the re-competition of the Male Reproductive Health Research (MRHR) Career Development Program. The Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD) provides funding for a limited number of programs in male reproductive health. These centers support the research career development of urologists, reproductive endocrinologists and other clinicians who have recently completed subspecialty training and who are commencing basic, translational and/or clinical research relevant to men's reproductive health. The goal of this initiative is to increase the clinical research capacity among practitioners in the area of male reproductive biology and promote the translation of basic science advances to clinical practice. The MRHR program will accomplish this through a mentored program, bridging clinical training with research independence. The intent is to stimulate clinical research in male reproductive health and bring a more holistic approach to fertility regulation in clinical practice in which the male is an equal partner.

### **DOD Peer Reviewed Cancer Visionary Postdoctoral Fellowship Award**

Applications for the Peer Reviewed Cancer Research Program (PRCRP) are being solicited by the Assistant Secretary of Defense for Health Affairs, Defense Health Program. The PRCRP was established in 2009 to provide support for cancer research not addressed by the breast cancer, prostate cancer, lung cancer, and ovarian cancer research programs executed and managed by the Office of the Congressionally Directed Medical Research Programs (CDMRP). Appropriations for the PRCRP from FY09 through FY10 totaled \$31 million (M). The FY11 appropriation is \$16M. The goal of the PRCRP is to improve quality of life by decreasing the impact of cancer on service members, their families, and the American public. The FY11 PRCRP fosters the next generation of cancer research by providing new investigators and their early career mentors opportunities to excel in groundbreaking cutting-edge research for the prevention, detection, and treatment of cancer.

### **Contraceptive Development Research Centers Program**

The purpose of this FOA is to announce the re-competition of the Contraceptive Development Research Centers Program. The aim of the program is to conduct a wide range of research, both basic and applied, with the ultimate goal of developing clinically useful contraceptive products. These centers provide a multidisciplinary approach to high quality translational research programs in the area of contraceptive product discovery and development. The Centers will also serve as a national resource for career development of young scientists electing to pursue research in contraceptive development.

**Deadline: November 29, 2011**

### **Emergency Capital Repair Grant Program**

HUD provides grant funds to make emergency capital repairs to eligible multifamily projects owned by private non-profit entities that are designated for occupancy by elderly tenants. The capital repair needs must relate to items that present an immediate threat to the health, safety, and quality of life of the tenants. The intent of these grants is to provide one-time assistance for emergency items that cannot be absorbed within the project's operating budget and other project resources, and where the tenants' continued occupancy in the immediate near future is jeopardized by a delay in initiating the proposed cure. Eligibility for emergency capital repair grants under this notice is restricted to: Private nonprofit owners of eligible multifamily-assisted housing developments designated for occupancy by elderly tenants.

### **DoD Autism Clinical Trial Award**

The ARP Clinical Trial Award supports research with the potential to have a major impact on the treatment and/or management of ASD. Funding from this award mechanism must support a clinical trial and cannot be used for preclinical research studies. A clinical trial is defined as a prospective accrual of human subjects where an intervention (e.g., device, drug, biologic, surgical procedure, rehabilitative modality, behavioral intervention or other) is tested on a human subject for a measurable outcome with respect to exploratory information, safety, effectiveness, and/or efficacy. This outcome represents a direct effect on the human subject of that intervention or interaction. The term human subjects is used in this Program Announcement/Funding Opportunity to refer to individuals who will be recruited for, or who will participate in, the proposed clinical trial.

### **Comprehensive Alcohol Research Centers**

The National Institute on Alcohol Abuse and Alcoholism (NIAAA) invites applications for Comprehensive Alcohol Research Centers using the P60 mechanism. The overall purpose of the NIAAA Alcohol Research Center program is to provide leadership in conducting and fostering interdisciplinary, collaborative research on a wide variety of topics relevant to the Institutes mission. These topics include, but are not limited to: the nature, etiology, genetics, diagnosis, treatment, and prevention of alcohol use disorders and their biomedical, psychosocial, and economic consequences across the lifespan. Centers also are regional or national resources that contribute to the development of new research methods, technologies and approaches that sustain innovative goal-directed research.

**Deadline: December 7, 2011**

**Grant Link:** <http://grants.nih.gov/grants/guide/rfa-files/RFA-AA-12-003.html>

### **The Specialized Alcohol Research Centers**

National Institute on Alcohol Abuse and Alcoholism (NIAAA) invites applications for Specialized Alcohol Research Centers using the P50 mechanism. The overall purpose of the NIAAA Alcohol Research Center program is to provide leadership in conducting and fostering interdisciplinary, collaborative research on a wide variety of topics relevant to the Institutes mission. These topics include, but are not limited to: the nature, etiology, genetics, diagnosis, treatment, and prevention of alcohol use disorders and their biomedical, psychosocial, and economic consequences across the lifespan. Centers also are regional or national resources that contribute to the development of new research methods, technologies and approaches that sustain innovative goal-directed research.

### **Advancing HIV Prevention through Transformative Behavioral and Social Science Research**

This Funding Opportunity Announcement (FOA) encourages applications that will advance general knowledge about HIV prevention through transformative behavioral and social science research. An underlying assumption for this funding

opportunity is that methods of and findings from social and behavioral studies can make essential contributions to research that utilizes biomedical modalities. In addition, biomedical perspectives are essential for the advancement of social and behavioral HIV research on HIV prevention. Therefore, this FOA invites studies that are comprehensive in the sense that the reciprocal influences of relevant variables, whether social, behavioral, or biomedical are included in study design and interpretation. This FOA is intended to address the goals of the National HIV AIDS Strategy, and therefore studies should address issues that are highly relevant to the domestic (i.e., United States) HIV problem.

**Deadline: January 6, 2012**

#### **Innovation for HIV Vaccine Discovery**

The purpose of this Funding Opportunity Announcement (FOA), is to encourage applications from institutions/organizations proposing innovative, high risk, high impact research to identify novel vaccine concepts and targets that will aid in the design and development of an effective immunogen that may provide long-term protection from acquisition of HIV. The emphasis of this FOA is early discovery research that incorporates new ideas leading to the development of new conventional or outside-the-box approaches for vaccines that may have significant impact on the design of novel immunogens or immunization strategies for an effective HIV vaccine. The program is open to established and new investigators and does not require research expertise in HIV prevention as a prerequisite for submitting an application.

#### **NIAID Clinical Trial Implementation Cooperative Agreement**

The purpose of this Funding Opportunity Announcement (FOA) issued by the National Institute of Allergy and Infectious Diseases (NIAID) is to invite applications that propose implementation of investigator-initiated high-risk clinical trials. The trials must be hypothesis-driven, related to the research mission of the NIAID and considered a high priority

by the Institute. Investigators are encouraged to visit the NIAID website for additional information about the research mission and high-priority research areas of the NIAID

#### **NIDCD Research On Hearing Health Care**

This funding opportunity announcement (FOA) issued by National Institute on Deafness and Other Communication Disorders (NIDCD) invites Exploratory/Developmental Phased Innovation (R21/R33) grant applications to support research and/or infrastructure needs leading to more accessible and affordable hearing health care (HHC). For the purposes of the working group and this FOA, hearing health care includes assessment (including screening) and nonmedical treatment and rehabilitation of HL, including hearing aid selection and fitting and aural rehabilitation (counseling, auditory training). The proposed research aims should lead to the delivery of better healthcare access and outcomes and be directed to solutions that are effective, affordable and deliverable to those who need them. Outcomes research and health services research related to accessible and affordable hearing health care are also responsive to this FOA. This FOA provides support for up to two years (R21 phase) for preliminary /development studies, followed by possible transition of up to four years of expanded research and development support (R33 phase). The total project period for an application submitted in response to this FOA may not exceed five years.

### **Understanding User Needs and Context to Inform Consumer Health Information Technology**

This is a Large Research Project (R01) FOA to express AHRQs interest in funding research projects that will build a knowledge base of individuals personal health information management (PHIM) needs and practices and the design principles related to these activities. The increased interest in and availability of consumer health information technology (IT) applications meant to assist consumers in managing their personal health information has rapidly increased over the past decade. Many other industries have greatly benefited from design principles that take into account user needs and context, which help designers improve the utility of information management tools among a heterogeneous population of users. Individuals are the end users of consumer health IT; however, there is still a lack of basic research around these end users PHIM practices and needs and how these methods are influenced by a multitude of other contextual factors (e.g., care settings, demographics, motivations, user capabilities and limitations, informal caregiving networks, technology sophistication, and access to Internet) that, typically, represent a mixture of facilitators or barriers to adequate PHIM. This FOA looks to bridge the chasm that currently exists between consumer health IT designers and the users themselves, by bolstering basic research to better understand users PHIM practices, needs, and goals as they are intrinsically shaped by an array of contextual factors.

##### **Community Economic Development (CED) Projects**

The Administration for Children and Families (ACF), Office of Community Services (OCS) will award Community Economic Development (CED) discretionary grant funds to Community Development Corporations (CDC) for well-planned, financially viable, and innovative projects to enhance job creation and business development for low-income individuals. OCS seeks to fund projects that implement strategies for fostering self-sufficiency for low-income families and achieving sustainable employment and business opportunities. CED grants will be made as part of a broader strategy to address objectives such as decreasing dependency on Federal programs, chronic unemployment, and community deterioration in urban and rural areas. CED projects are expected to actively recruit low-income individuals to fill the positions created by CED-funded development activities, and to assist those individuals to successfully hold those jobs and ensure that the businesses and jobs created remain viable for at least one year after the end of the grant period. Recruitment and retention are typically addressed through activities that help address personal barriers such as illiteracy, substance abuse, inadequate transportation, lack of affordable child care, insufficient life skills, past criminal history, health problems, and other challenges that could inhibit an individual's ability to achieve self-sufficiency. CED projects are expected to incorporate into their recruitment plan an agreement with TANF, child support agencies, and other sources to obtain and document low-income referrals. Grantees are required to seek active partnerships with public and/or non-profit agencies that can help identify and refer appropriate low-income candidates to fill the positions created by the program. To make such partnerships effective, grantees are expected to use a partnership agreement to document the explicit strategies for these collaborations, including a clear articulation of the contribution that the cooperating agency will make to the project. In support of a multi-agency strategy involving the Departments of Agriculture, Treasury, and Health and Human Services, OCS seeks to fund projects that will implement innovative strategies for revitalizing communities by eliminating food deserts while creating sustainable employment and business opportunities for and/or in low-income communities. For more information on food deserts go to <http://www.ers.usda.gov/Publications/AP/AP036/>. Through the CED program, OCS will award bonus points for projects addressing the elimination of food deserts; projects that finance grocery stores, farmers markets or other retail sources that provide access to fresh nutritious food; or projects that collaborate in the HFFI through New Market Tax Credits, Community Development Financial Institution Funds or loans, grants, or promotions through Agriculture.

### **Resident Opportunity and Self Sufficiency Service Coordinators Program**

The purpose of the Public and Indian Housing Resident Opportunity and Self Sufficiency (ROSS) Service Coordinators program is to provide grants to public housing agencies (PHAs), tribes/tribally designated housing entities (TDHEs), Resident Associations (RAs), and nonprofit organizations (including grassroots, faith-based and other community-based organizations) for the provision of a Service Coordinator to coordinate supportive services and other activities designed to help Public and Indian housing residents attain economic and housing self-sufficiency. This program works to promote the development of local strategies to coordinate the use of assistance under the Public Housing program with public and private resources, for supportive services and resident empowerment activities. These services should enable participating families to increase earned income, reduce or eliminate the need for welfare assistance, make progress toward achieving economic independence and housing self-sufficiency or, in the case of elderly or disabled residents, help improve living conditions and enable residents to age-in-place. A Service Coordinator ensures that program participants are linked to the supportive services they need to achieve self-sufficiency or remain independent. Funds in this program are not allowed to be used for the direct provision of these services. This program is similar to the Public Housing Family Self Sufficiency program (PH FSS); however, the PH FSS program is open only to PHAs and tribes/TDHEs, has a requirement of an escrow account for its participants and provides one-year funding. The ROSS SC program is open to non-profit and Resident Association applicants, provides three-year funding, includes administrative expenses and training as eligible uses of the funds and requires a 25% match by statute. A PHA or tribe may receive grants in both programs. PLEASE NOTE: This program is ONLY to provide SERVICE COORDINATION and is ONLY to serve residents of CONVENTIONAL PUBLIC HOUSING.

### **Housing Opportunities for Persons with AIDS**

Grants funded under this initiative will advance HUD's implementation of the National HIV/AIDS Strategy (NHAS). This NOFA also addresses the Department's Fiscal Year 2010-2015 Strategic Plan and the Opening Doors Federal Strategic Plan to Prevent and End Homelessness. These actions address goals to: prevent and end homelessness; increase the supply of affordable housing; and increase the coordination of mainstream housing resources and other health and human services. This NOFA announces funds available for projects that address both: (1) direct housing assistance and service delivery to low income persons and families living with HIV/AIDS, including homeless individuals and families; and (2) comprehensive planning and coordination of local resources in meeting housing and service needs of the population. As a result of project efforts, communities will be assisted in the development and use of an Integrated HIV/AIDS Housing Plan (IHHP) to be issued at the end of the third year of operation. The IHHP is an administrative function and should demonstrate local system

changes in the delivery of housing and services. Grantees are expected to provide housing assistance to eligible persons in their communities while concurrently examining and comprehensively integrating local services for coordinating and streamlining where possible the delivery of those services in your community.

### **Choice Neighborhood Initiative Planning Grant**

Choice Neighborhoods Planning Grants will support the development of comprehensive neighborhood revitalization plans which will transform these communities into viable, mixed-income neighborhoods by linking housing improvements with appropriate services, schools, public assets, transportation, and access to jobs. The program is focused on directing resources to address three core goals housing, people and neighborhoods. To achieve these core goals, communities must develop and implement a comprehensive neighborhood revitalization strategy, or Transformation Plan. The Transformation Plan will become the guiding document for the revitalization of the public and/or assisted housing units while simultaneously directing the transformation of the surrounding neighborhood and positive outcomes for families.

### **Notice of HUD's FY2011 NOFA Policy Requirements and General Section to HUD's FY2011 NOFAs for Discretionary Programs**

This notice describes HUD's FY2011 policy priorities and requirements applicable to all of HUD's NOFAs published in FY2011. The General Section provides overall guidance and direction to applicants regarding HUD's Policy Priorities and their relationship to HUD's Strategic Goals as stated in the Department's Strategic Plan for FY2010-2015. For detailed information on HUD's Strategic Plan for FY2010-2015 visit HUD's website. HUD's Strategic Plan for FY2010-2015 and HUD's Policy Priorities set forth a roadmap of actions to help transform communities through the implementation of HUD's programs. Each program NOFA will contain specific activities, requirements, policy priorities, and outcomes or measures of success that will be used to evaluate submitted applications. In each case, the outcomes described in the program NOFA will support the measures of success described in HUD's Strategic Plan. Each program NOFA will also describe additional procedures and requirements that apply to the individual program NOFAs, including a description of the eligible applicants, eligible activities, threshold requirements, factors for award, variations from the General Section requirements, and any additional program requirements or limitations. To adequately address all of the application requirements for any program for which you intend to apply, please carefully read and respond to both this General Section and the individual program NOFAs.

#### James Irvine Foundation California Democracy Grants

Governance Reform — We make grants to improve state and local governance. Currently, we give priority to projects in three areas: budget and fiscal systems, election policies and practices, and the state redistricting process. We also welcome ideas for projects in other areas that can significantly improve state and local governance. Through our grantmaking, we support policy development, strategic communications, outreach, coalition building and other activities. For more information about our grants in this area. Civic Engagement — We make grants to increase opportunities for civic engagement among historically underrepresented communities, including low-income, ethnic and immigrant populations. We are particularly interested in innovative approaches and ongoing mechanisms for involving diverse communities in public decision making. In addition, we have a special focus on civic engagement specifically in the San Joaquin Valley and Inland Empire.

#### **Second Chance Act Juvenile Offender Reentry Program for Planning and Demonstration Projects**

The Second Chance Act of 2007 provides a comprehensive response to the increasing number of incarcerated adults and juveniles who are released from prison, jail, and juvenile residential facilities and are returning to their communities. Approximately 100,000 youthful offenders are confined in juvenile residential facilities on any given day. The FY 2011 Second Chance Act Juvenile Offender Reentry Program helps ensure that the transition the youth make from secure confinement facilities to the community is successful and promotes public safety. A secure confinement facility may include a juvenile detention center, juvenile correctional facility, or staff-secure facility. Eligible juveniles must have been confined under juvenile court jurisdiction. This program is authorized by the Second Chance Act, Pub. L. 110-199. The Second Chance Act authorizes grants to states, territories, units of local government and federally-recognized Indian tribal governments for demonstration projects to promote the safe and successful reintegration into the community of individuals who have been incarcerated or detained.

**Deadline: July 11, 2011**

**Maximum Grant: \$750,000**

#### **Defending Childhood Technical Assistance - OJJDP FY 2011**

The Defending Childhood Technical Assistance project will support an organization and/or a consortium of organizations to provide technical assistance to grantees and others during Phase II of the Attorney General's Defending Childhood Initiative. The project will offer education and training, expert consultations, peer-to-peer networking opportunities, resources, and other tailored assistance to effectively respond to diverse communities addressing children's exposure to violence. The project will be administered through a cooperative agreement with the Office of Juvenile Justice and Delinquency Prevention (OJJDP) in partnership with the Office for Victims of Crime (OVC), and the Office on Violence Against Women (OVW). The project will assist communities to develop and implement collaborative cross-agency policy, practice, and procedures and will assist communities in identifying evidence-based practices that address children's exposure to violence throughout the developmental age spectrum of 0 through 17. Note: Exposure to violence includes being a victim of violence or a witness to violence and encompasses abuse, neglect or child maltreatment, domestic violence, dating violence, sexual assault and stalking, school violence, and community violence.

#### **Second Chance Act Demonstration Field Experiment: Fostering Desistance through Effective Supervision - BJA FY 11**

As part of a collaborative effort with the National Institute of Justice (NIJ) and the National Institute of Corrections (NIC), BJA seeks proposals to implement and rigorously test impor-

tant criminal justice interventions and programs as part of a multi-site Demonstration Field Experiment (DFE) on prisoner reentry. The DFE will use a randomized controlled trial program methodology. This multi-site DFE is part of BJA's reentry activities supported with funding under the Second Chance Act of 2007 (SCA) (Pub. L. 110-199). One purpose of the SCA is to generate new evidence about effective solutions for managing the increasing number of people who are released from jail and prison into communities and the subsequent challenges communities face as offenders attempt to reintegrate into society. For information, read the Second Chance Act of 2007. **Deadline: July 11, 2011**

#### **Edward Byrne Memorial Justice Assistance Grant (JAG) Program Local Solicitation - BJA FY 11**

The Edward Byrne Memorial Justice Assistance Grant (JAG) Program (42 U.S.C. 3751(a)) is the primary provider of federal criminal justice funding to state and local jurisdictions. JAG funds support all components of the criminal justice system, from multijurisdictional drug and gang task forces to crime prevention and domestic violence programs, courts, corrections, treatment, and justice information sharing initiatives. JAG-funded projects may address crime through the provision of services directly to individuals and/or communities and by improving the effectiveness and efficiency of criminal justice systems, processes, and procedures

#### **Violent Gang and Gun Crime Reduction Program (Project Safe Neighborhoods) - BJA FY 11**

Project Safe Neighborhoods (PSN) is designed to create safer neighborhoods through a sustained reduction in crime associated with gang and gun violence. The program's effectiveness is based on the cooperation of local, state, and federal agencies engaged in a unified approach led by the U.S. Attorney (USA) in each of the 94 federal judicial districts. Each USA is responsible for establishing a collaborative PSN task force of federal, state, and local law enforcement and other community members to implement gang and gun crime enforcement, intervention and prevention initiatives within the district. Through the PSN task force, each USA will implement the five design features of PSN partnerships, strategic planning, training, outreach, and accountability to address specific gun and gang crime problems in that district.

#### **Building Neighborhood Capacity Program Training and Technical Assistance Coordinator - BJA FY 11**

The Neighborhood Revitalization Initiative (NRI) is a White House-led federal partnership<sup>2</sup> that supports transformation of distressed neighborhoods into neighborhoods of opportunity. The Building Neighborhood Capacity Program (BNCP) Training and Technical Assistance Coordinator (TTA Coordinator) Program is a core component of the NRI strategy. BNCP focuses on the nation's neediest neighbor-

hoods, those that struggle with such issues as crime, poor health, struggling schools, inadequate housing, and access to employment BNCP seeks to assist neighborhoods in developing the capacity to undertake comprehensive planning and development activities and to partner with neighborhoods in the long-term process of rebuilding and revitalization. This program is being jointly funded by the Bureau of Justice Assistance, Office of Justice Programs, the U.S. Department of Housing and Urban Development, and the U.S. Department of Education. Statutory authorities for this initiative are dependent upon final funding decisions and the proportional contributions of each participating agency (as well as the number and composition of participating agencies) may be subject to change during the term of this project. Through the BNCP TTA Coordinator Program, five competitively selected neighborhoods will be provided a range of TTA to help them begin to undertake revitalization, guided by comprehensive neighborhood revitalization plans, in concert with relevant local and state plans and planning processes. The competitively selected BNCP TTA Coordinator will coordinate, provide and/or broker needed support to the selected sites, through a variety of TTA activities outlined in the following solicitation. Applicants are limited to nonprofit organizations, faith-based and community organizations, institutions of higher learning, and for-profit organizations (commercial) with significant experience in supporting neighborhood and community development through training and technical assistance. For-profit organizations must agree to forgo any profit or management fee.

#### **SBIR E-learning for HAZMAT and Emergency Response**

This funding opportunity announcement (FOA) encourages Small Business Innovation Research (SBIR) grant applications from small business concerns (SBCs) that propose to further the development of Advanced Technology Training (ATT) Products for the health and safety training of hazardous materials (HAZMAT) workers, emergency responders, and skilled support personnel. These products would complement the goals and objectives of the Worker Education and Training Program (WETP). The major objective of the NIEHS/WETP is to prevent work related harm by assisting in the training of workers in how best to protect themselves and their communities from exposure to hazardous materials. There is a need to ensure that learning and training technologies are further developed, field tested and applied to real world situations. It is the intent of this FOA to support the development of emerging technologies to improve worker preparedness through training and education enhancements and methodologies, and to support e-collaboration, e-teaching, and e-learning in safety and health training for workers engaged in hazardous materials response. Funding for this initiative comes directly from NIEHS Worker Education and Training Branch SBIR funds.

### **Clean Fuels/Bus and Bus Facilities Program**

The Clean Fuels Grant program was first established as the Clean Fuels Formula Grant program in Section 3008 of the Transportation Equity Act for the 21st Century, Public Law 105-178, June 9, 1998 (now codified at 49 U.S.C. Sec. 5308). The program was developed to assist non-attainment or maintenance areas in achieving or maintaining the National Ambient Air Quality Standards for ozone and carbon monoxide (CO). Additionally, the program supported emerging clean fuel and advanced propulsion technologies for transit buses and markets for those technologies. FY 2011 unallocated funding provides \$51.5 million dollars in discretionary Clean Fuels Grant program resources. Additionally, FTA is expanding the eligible applicant pool and may fund projects that meet the Clean Fuels Grant program objectives in attainment areas using a portion of discretionary Bus and Bus Facilities program resources that are available. Program Purpose - The Clean Fuels/Bus and Bus Facilities program has a two-fold purpose. First, the Clean Fuels Grant program was developed to assist nonattainment and maintenance areas in achieving or maintaining the National Ambient Air Quality Standards for ozone and CO. The second program purpose is to support emerging clean fuel and advanced propulsion technologies for transit buses and markets for those technologies.

### **Transit Investments for Greenhouse Gas and Energy Reduction (TIGGER)**

There are two eligible purposes for TIGGER grants: (1) For capital investments that will assist in reducing the energy consumption of a transit system; or (2) for capital investments that will reduce greenhouse gas emissions of a public transportation system. Project proposals may be submitted under either or both categories. FTA has established a range of funding that will be considered for approval. Each submitted proposal must request a minimum of \$1,000,000 and must not exceed a maximum of \$15,000,000. Proposals that include projects less than \$1,000,000 may be applied for if they are part of a consolidated proposal submitted by the State Department of Transportation (State DOT) or a consortium of smaller agencies working in tangent that, in total, meets or exceeds the \$1,000,000 threshold. FTA may decide to provide only partial funding for certain proposals to maximize the impact of this program. Detailed budget proposals and a minimum value needed to achieve project results are expected in all proposals. FTA encourages applicants with projects that are not technologically innovative, or which do not meet these funding thresholds to apply under the Clean Fuels program, which has simpler application criteria.
